SKILLS

- **Languages**: C++, C, JavaScript
- **Frameworks**: HTML, CSS, Tailwind CSS, Node.js, React.js
- **Tools/Databases**: Git, GitHub, VS Code
- **Soft Skills**: Team Player, Project Management, Adaptability

PROJECTS

- **Real-Time Memory Allocation and Tracking | GitHub** Mar' 25 – Apr' 25
  - Created an interactive visualization tool demonstrating OS memory allocation strategies such as First-Fit, Best-Fit, and Worst-Fit in real time.
  - Implemented dynamic memory block rendering to help users observe fragmentation, allocation efficiency, and algorithm behavior step-by-step.
  - Enhanced conceptual understanding for students with animated workflows, enabling 40% faster grasp of allocation strategy differences.

    Tech Stack: HTML, CSS, JavaScript

- **Interest-Based Adventure Suggestion System** Mar' 25 – Apr' 25
  - Developed a web-based adventure suggestion platform that recommends activities and destinations based on user interests for personalized travel planning.
  - Integrated an AI-powered chatbot enabling real-time conversational guidance and tailored adventure tips for a more interactive user experience.
  - Utilized external location APIs to fetch live place details, improving recommendation accuracy and reducing decision-making time for users.

    Tech Stack: HTML, CSS, JavaScript, AI Chatbot API

- **MindCare: Self-Evaluation and Support System | GitHub** Apr' 25 – May' 25
  - Built a mental wellness platform allowing users to assess their emotional state through guided evaluation forms and behavior-based indicators.
  - Designed an automated support module providing personalized coping recommendations and well-being guidance based on assessment patterns.
  - Implemented secure backend workflows using PHP with DBMS integration to store user responses and enable protected progress tracking.

    Tech Stack: HTML, Tailwind CSS, JavaScript, PHP, DBMS

TRAINING

- **Data Structures & Algorithms using C++** | CipherSchools Jun' 25 – Jul' 25
  - Completed hands-on training in core Data Structures and Algorithms, focusing on arrays, linked lists, stacks, queues, trees, graphs, sorting, and searching techniques.
  - Strengthened problem-solving skills by implementing optimized algorithms in C++ and practicing complexity analysis for efficiency.
  - Built a fully functional **Snake Game** using C++, applying DSA concepts for movement logic, collision detection, scoring system, and real-time game loop handling.

CERTIFICATES

- Responsive Web Design | FreeCodeCamp Nov' 23
- Mastering in C: Basic to Beyond | CSE Pathshala Mar' 24
- Cloud Computing | NPTEL Apr' 25

ACHIEVEMENTS

- Recognized in the top 50% by the Dean for academic excellence and active extracurricular participation. Oct' 25

EDUCATION

- **Lovely Professional University** Phagwara, Punjab
  Bachelor of Technology in Computer Science and Engineering | CGPA: 6.95 *Aug' 23 – Present*
- **Notre Dame Academy** Munger, Bihar
  Intermediate | Percentage: 89% *Apr' 20 – Mar' 22*
- **Saraswati Vidya Mandir** Munge, Bihar
  Matriculation | Percentage: 93.2% *Apr' 19 – Mar' 20*
